Kids Believe in SickKids

SickKids Foundation believes that fostering a spirit of giving in today's children is essential for building and sustaining caring communities. The Kids Believe in SickKids program was created to help children and adults raise funds for the Hospital and to teach them that their efforts have an important effect on the communities in which they live.

The Kids Believe in SickKids Awards were created to celebrate the outstanding efforts of our young leaders. Through their initiative, creativity and determination, each award winner makes a difference that exemplifies the spirit of giving.
