

Our work with Independent School has developed over the past twelve years alongside our relationship with Upper Canada College. At the College we were initially asked to provide distinctive awards and gifts for alumni from all over the world.

When the College completed its new Creativity Centre we were engaged to design and manufacture a Campaign donor wall and area recognition signage.

Over the years we have provided similar services to the College for the Learning Centre, the William P. Wilder Arena and Sports Complex. Presently we continue ongoing updates and are working on a cumulative donor system for the College.

Upper Canada College is proud to acknowledge the generosity and vision of Richard Wernham and Julia West, parents of Nicholas Wernham (2002), who have made this Centre possible.

The Richard Wernham and Julia West Centre for Learning was created in 2001 to help all UCC students become more effective learners by assisting them in achieving a greater understanding of their individual learning styles and needs, as well as developing successful learning strategies. The Centre's mission also includes conducting research in this field and sharing both its experience and research with the broader educational community.

The Richard Wernham and Julia West Centre for Learning was officially opened on November 21, 2001.
